

All jobs should include the following:

- 1) A preview of all sides with vehicle outlines.

A low resolution 8.5 x 11 pdf or jpeg is great for this; it is for reference only.

*Example of a
preview file*

- 2) A separate file of each side for printing, with bleed.

This must include the template on a separate layer so it can be deleted for printing.

Specifications for Photoshop Files:

- 1) File should be at 1/4 scale (25% of actual size) minimum 200dpi - maximum 300 dpi
- 2) Color mode should be CMYK
- 3) Rasterize all fonts or include fonts with document
- 4) Psd files are preferred
- 5) Please include a 3" bleed
